

AMENDMENTS TO THE SPECIFICATION

Amendments to the specification are provided in the Fourth Substitute Specification, marked and unmarked copies of which are filed herewith along with a Statement That the Specification Contains No New Matter.

After entering the Fourth Substitute Specification, please substitute the revised sequence listing with the substitute sheets (4 pages) submitted with the Amendment mailed on 30 April 2004 for the sequence listing in the Substitute Specification, and renumber the pages with the claims and the abstract accordingly. (A copy of the revised sequence listing is included herewith for the Examiner's convenience.) In accordance with the Examiner's previous objections, the quoted sequence listing (p. 50) has been canceled as shown in the marked Substitute Specification.
